

INDEX TO VOLUME XX, 1949

The Index to Volume XIX of *California Schools* has been made in brief form as a part of the December issue. The editors have listed only the most important items in the section "For Your Information," and have reduced the listing of separate items to a minimum. Reference to digests of interpretations of the school law appear in the Index under "Legal Interpretations," and the various items are not cited in the general index. The abbreviations SC, AC, AGO, and DO have been used in the legal section to show that the item is a digest of a decision of the Supreme Court or the Appellate Court, an opinion of the Attorney General or a departmental opinion of the Department of Education.

The first number after each item in the index refers to the issue of *California Schools* in which it may be found, and the second cites the page on which the item appears. A comma separates the number of the issue and the page reference; a semi-colon separates references to the same subject.
